

How secure is your data?

If you lost your data today, would your
business survive tomorrow?

How much **time** do you spend on ensuring that your daily backup
has completed correctly?

What is the **cost** of the backup machine?

What is the **cost** of replacement tapes and disks?

Would you like a foolproof option that will guarantee that you
always have an up to date backup of all your data available?

Would you like this to be done completely automatically and
stored off site for total security?

With **Merlin[®] online backup** this can now be done via a
Broadband connection from as little as £10.00* per month!
