

Merlin® protect

HELP!

Would you like to minimise costly down times and reduce fixed costs?

Merlin Protect offers a unique opportunity to obtain top quality IT support services at VERY competitive rates!

- **Minimise down times**
- **Reduce fixed costs**
- **7 day Nationwide cover**
- **Complete peace of mind for your IT support**
- **Flexible cover to suit your business**
- **Cost effective and reliable**

Merlin Protect is a division of Merlin Software Ltd and provides hardware installation and support services for PC based systems and electronic point of sale (EPOS) systems nationwide, from 6.00 a.m. to 10.00 p.m. 7 days a week.

We offer a 4-hour response and endeavour to return your system to full operation within 2 hours of arriving on-site. Our nationwide support services cover everything from basic installations to fully integrated structured data cabling requirements.

The costs charged are very competitive and contracts start from as little as £20 per month. All payments are by monthly Standing Order with no additional interest fees charged. This ensures that your system is always fully protected without major annual payments, thus offering a huge benefit to cashflow.
